Our Cloisonne Hard Fired pins continue the fine art tradition of glass enameling started in China centuries ago. The pins are made from hand-pouring powdered glass into the recessed die struck brass base. The brass can be plated in gold, silver or nickel. After baking at a very high temperature, the glass enamel is sanded and polished to be flush with the metal lines that separate the colors. This gives the pins a smooth, lustrous quality making them prized by collectors. Available colors are limited to a select group of genuine cloisonne glass powders.
