

"He scared the kids and the teacher."

Why this school's principal wishes she had ordered **Visitor Pass Solutions** sooner than she did – even a week sooner!

A principal at a middle school tells this story:

"At first I wasn't interested in buying Visitor Pass. Then, a week later, I had a change of heart, and placed my first order.

"Here's why:

"A father of one of our students decided to visit his son's classroom — without checking with the office first.

"On his way down the hall he passed a custodian, who asked him if he had been to the office.

"The father said, 'Oh, yeah, they said to go on down.' And the custodian let him continue on his way.

"Well, when he got to his son's classroom, the father burst into the room and started yelling at the teacher about his son's grades.

"Fortunately, nobody got hurt. He calmed down and left after the teacher called the office. But he scared the kids, he scared the teacher — and he embarrassed the heck out of his son!

"If we had been using Visitor Pass, the custodian would have noticed that father wasn't wearing a badge and would have directed him to the office. This might have been prevented.

"I wish I had ordered sooner."
