We have the knowledge and the capabilities to custom design and manufacture any special item.

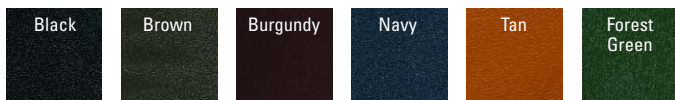

### Regency Cowhide

This FULL GRAIN COWHIDE series of items are made from drum dyed naked finish cowhides. The top of the hide has not been mechanically corrected or altered. The leather is tumbled in its tanning process to give it a soft and supple feel that brings out its true luxury and elegance. *Colors available:*

### Polished Top Grain Cowhide

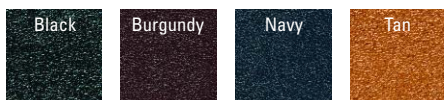

Top Grain Cowhide Leather is the top layer of a hide in which the hair has been removed. Slight imperfections are corrected and the hide is finished with an aniline dyeing process. This gives the leather its character and suppleness that one expects from the finest leather goods. Its strength & durability will provide years of service. *Colors available:*

Custom colors available — check with factory.

### Oxford Bonded Leather

This leather product is made from 100% leather fibers combined with latex adhesive which are bonded together to give the appearance, feel and smell of genuine leather at a reduced price. *Colors available:*

### Leather

Leather is a natural material. Each hide has its own characteristics, color shadings, grains and blemishes. These slight irregularities are what distinguishes leather from synthetic materials and gives it natural beauty.
