

# 2008 CATALOG OSBORNE COINAGE

*The CoinCraft Line*

**39 ITEMS AVAILABLE IN 2 WEEKS!**

# PRODUCT INFORMATION

**ACKNOWLEDGEMENTS** – Order acknowledgements are faxed for every order at no charge.

**ALUMINUM** – Page 5.

**AGGREGATING** – Aggregating is allowed on some orders. Please check with Sales.

**ANODIZED ALUMINUM** – Page 6.

**ANTIQUÉ FINISHES** – Page 4.

**ANTIQUÉ SILVER** – Page 7.

**ARTWORK** – Good, clean black and white camera-ready artwork is required for all orders. See page 18 for complete instructions.

**BLANKS** – Osborne Coinage does not offer blanks available for sale.

**BRASS** – Goldine® is a golden brass alloy used exclusively by Osborne Coinage. Please see Page 3.

**CASE STUDIES** – Osborne Coinage has many case studies available. Please ask Sales for Coin Tips.

**CATALOGS** – Up to 5 additional catalogs are available at no cost.

**COLOR CHANGE** – When more than one color is required during anodizing, a color change charge will be added. Anodizing is available in solid colors only.

**COLORIZED COINS** – Page 10.

**CONSECUTIVE NUMBERING ON SURFACE** – Add \$0.20 (E)

**CONSECUTIVE NUMBERING ON SURFACE WITH PRODUCTS KEPT IN ORDER** – Add \$0.20 (E)

**CREDIT** – Terms are net 30 upon approved credit. To expedite first order full payment may be required. Payment may also be made by Visa/MC/Amex.

**DIES** – Page 17.

**DROP SHIPMENTS** – Add \$8.95(Z) per shipment plus actual shipping costs.

**EDGE** – Coins may have plain (like a nickel) or reeded (like a quarter) edges at no additional charge.

**EDGE NUMBERING** – Add \$0.43 (E) Not available on 12, 14, or 16 gauge. Minimum quantity of 250.

**EXPORT CHARGES** – Add \$28.50(Z) per shipment plus actual shipping costs.

**F.O.B.** – Factory in Ohio.

**GAUGES** – 10 gauge is approx. thickness of a silver dollar and 14 gauge is approx. thickness of U.S. quarter. Low-numbered gauges are thicker than higher-numbered gauges.

**GOLDINE®** – Is a registered trademark of Osborne Coinage. See page 3.

**HALL MARKING** – Hall marking with .999FS or 24KT on edge - Add \$0.43 (E) Minimum quantity of 250.

**HOLE PIERCING** – Add \$0.20 (E) each. Be sure to indicate on the artwork where to punch the hole. Minimum quantity of 250.

**KEY TAGS** – Page 8.

**LESS THAN MINIMUM** – Not available. However, Osborne Coinage's low prices may make our minimum quantity cost effective for LTM requirements.

**MULTIPLE DESIGNS** – When ordering one item in multiple designs a charge for changing dies will be added.

**NECK RIBBONS** – Standard on our B.A.M.™ Line medals.

For all others, call Sales for price and availability.

**NICKEL-SILVER** – Page 7.

**NUMBERING** – Add \$0.20(E) for numbering on the face. Add \$0.43 (E) for edge. Minimum quantity of 250. Additional charge for keeping in order.

**OVER/UNDER** – Not to exceed 5% of the ordered quantity. They are shipped and billed at the unit price.

**PACKAGING** – Page 11.

**PEWTER** – While Osborne Coinage does not offer Pewter, Antique Silver has a Pewter-like appearance. Page 7.

**PRE-PRODUCTION SAMPLES** – \$75(Z) set up fee plus coin costs. Maximum of 2 samples.

**PRICE CHANGES** – Due to fluctuating costs, prices are subject to change without notice.

**PRODUCTION TIME** – Please check individual item and Sales.

**PROOFS** – Proofs of new ML & DR style dies are overnighted for approval. Overnight fees are invoiced.

**RIGHTS TO PROMOTION** – Osborne Coinage Co. reserves the right to use any and all product produced for sale to customers in any advertising, direct mail, collateral materials, tradeshow booth, or other marketing vehicles and displays unless otherwise specified in writing by the customer at the time the order is placed. Products displayed in any advertisements, marketing, display or promotional vehicles are shown as examples of the type and quality of the products produced. They are not represented for resale, nor are they to be construed as product or brand-name endorsements for the registered mark owners.

**RUSH CHARGE** – 20% when lead time is less than published minimum.

**SAMPLES** – Reasonable requests for random samples are mailed at no charge. Please contact Sales.

**SHIPPING** – Shipping weights are provided after most items. Freight carrier is at Osborne Coinage's discretion unless otherwise specified.

**STRIKING BOTH SIDES** – Price includes one or two sided imprint.

**SILVER** – Fine Silver available in Proof-like Quality. Page 9.

**SIZES** – Diameters range from 0.984" to 3".

**STOCK DIES** – Osborne Coinage offers many stock dies. Stock dies used in the catalog are denoted with an "S". We also offer a Stock Die Brochure. Please contact Sales.

**TERMS AND CONDITIONS** – Complete Terms and Conditions of Sale are printed on the back of all quotations and order acknowledgments.

**VERBRONZE®** – is a registered trademark of OCC. See page 4.

All Photos Actual-Size

## A COINCRAFT EXCLUSIVE

Goldine is a solid brass alloy, formulated to look like 18KT gold. Besides its durability and weight, Goldine reproduces the finest detail and creates a coin with tremendous popular appeal.

During production, Goldine coins are die-struck on both sides. Each coin is then individually coated with fine jewelers lacquer to retard tarnishing.

Despite its beauty and appeal, Goldine is economical enough to be used for traffic builders or continuity programs. It is also a popular choice for grand opening gifts, club member souvenirs and employee recognition awards.

**PRICING NOTES:** It takes 2 dies to make a coin – one die per side. The prices shown are the same whether you strike one side or two sides. Pricing also includes lacquering to retard tarnishing. Bulk packing for 1", 1-1/8" & 1-1/4". 34mm and 39mm are individually polybagged. **Custom-made dies are additional –see page 17 for pricing.** Save money by using stock dies for one side.

**LEAD TIME:** 2 weeks from receipt of camera-ready artwork.

## ANTIQUÉ BRONZE FINISH

Our Verbronze finish begins with a Goldline® coin that is chemically aged to build up a rich oxidized coating. Each coin is then relieved to accent the fine details of your design.

**PRICING NOTES:** It takes 2 dies to make a coin – one die per side. The prices shown are the same whether you strike one side or two sides. Price includes application of antique finish, lacquering to retard tarnishing and individual poly-bagging for all sizes.

**Custom-made dies are additional –see page 17 for pricing.** Save money by using stock dies for one side.

**LEAD TIME:** 2 weeks from receipt of camera-ready artwork.

## LIGHTWEIGHT FOR MAILINGS INEXPENSIVE FOR GIVEAWAYS

Aluminum coins are the perfect way to add big excitement to your next promotion. Solid metal coins convey greater value than plastic and wooden coins or tokens.

In addition, aluminum's light weight is ideal for mass mailings or parade throws.

Osborne was the first to strike aluminum coins in 1892 and is still the largest producer of aluminum coins and Mardi Gras doubloons.

**PRICING NOTES:** It takes 2 dies to make a coin – one die per side. The prices shown are the same whether you strike one side or two sides. Aluminum coins are bulk packed. **Custom-made dies are additional –see page 17 for pricing.** Save money by using stock dies for one side.

**LEAD TIME:** 2 weeks from receipt of camera-ready artwork.

## MARDI GRAS, SWEEPSTAKES GAMES, PARADES

Anodizing is a bright, permanent color coating that can be applied to any aluminum coin.

In addition to adding color, anodizing can be used to distinguish different denominations or expiration dates. Furthermore, it can be used to tie in product packaging or team colors.

### STANDARD COLORS

CoinCraft uses four standard colors, RED, BLUE, GREEN, and GOLD. Additional colors are available although we cannot provide exact matches.

**PRICING NOTES:** It takes 2 dies to make a coin – one die per side. The prices shown are the same whether you strike one side or two sides. Pricing includes anodizing all coins the same color and bulk packing.

**Custom-made dies are additional –see page 17 for pricing.** Save money by using stock dies for one side.

**LEAD TIME:** 4-5 weeks from receipt of camera-ready artwork.

# NICKEL-SILVER & ANTIQUE SILVER

## BRIGHT SILVER FINISH SIMULATES FINE SILVER

Nickel-Silver is a heavyweight alloy made of a special blend of nickel, copper and zinc. Although it contains no precious metal, it is bright silver in color, scratch-resistant, non-tarnishing and very durable.

It is a great coin to use to commemorate 25th Anniversaries. In addition, it is economical enough to be used in any application to give the impression of a silver dollar.

**PRICING NOTES:** It takes 2 dies to make a coin – one die per side. The prices shown are the same whether you strike one side or two sides. Pricing includes individual polybagging.

**Custom-made dies are additional –see page 17 for pricing.** Save money by using stock dies for one side.

**LEAD TIME:** 2 weeks from receipt of camera-ready artwork.

## PEWTER-LIKE FINISH

The Antique Silver finish begins with a Goldine Coin that we plate with silver. Each coin is then chemically aged and relieved to a beautiful antique finish.

**PRICING NOTES:** It takes 2 dies to make a coin – one die per side. The prices shown are the same whether you strike one side or two sides. Pricing also includes antique finish, lacquering to retard tarnishing and individual polybagging.

**Custom-made dies are additional –see page 17 for pricing.** Save money by using stock dies for one side.

(6C)

## NICKEL-SILVER

This is the same bright silver color alloy used on our coins. Please see page 7.

Size	Item#	250	500	1,000	2,500	5,000	10,000
39mm	NS-945XL	\$ 3.51	\$ 2.70	\$ 2.32	\$ 2.10	\$ 2.00	\$ 1.92

(6C)

**PRICING NOTES:** It takes 2 dies to make a keytag – one die per side. The prices shown are the same whether you strike one side or two sides. Pricing includes appropriate finish, lacquering to retard tarnishing and jump and split rings. All fully assembled key tags are individually polybagged.

**Custom-made dies are additional –see page 17 for pricing.** Save money by using stock dies for one side.

**LEAD TIME:** 2 weeks from receipt of camera-ready artwork.

## “PROOF-LIKE” QUALITY FINE SILVER

For special presentations, we offer 39mm coins containing one troy ounce of .999 fine silver. These coins can be used for gifts and awards. They are perfect for sponsors, executives, and contributors. This high-quality precious coin starts with a .999 fine silver blank which is then carefully struck in our high-quality presses. The dies are specially prepared to provide a mirror-polished background with frosted highlights.

**YOU MUST ADD THE COST OF 1 OZ. FINE SILVER TO THE COST OF MINTING THE COIN (SHOWN BELOW). SPOT PRICE CHANGES DAILY. CALL SALES FOR SPOT PRICE OF SILVER. PAYMENT FOR SILVER MUST BE MADE WITHIN 24 HOURS.**

“S” indicates stock die

**PRICING NOTES:** It takes 2 dies to make a coin – one die per side. The prices shown are the same whether you strike one side or two sides. The coins are tissue wrapped for shipping. Please see page 11 for additional packaging. **Custom-made dies are additional –see page 17 for pricing.** Save money by using stock dies for one side.

**LEAD TIME:** 4-5 weeks from receipt of camera-ready artwork.

SIZE	ITEM #	GAUGE	100	250	500	1,000	2,500
39mm	FS-5500	10	\$ 9.67	\$ 5.90	\$ 5.00	\$ 4.50	\$ 4.33

PLEASE ADD COST OF SILVER TO THESE PRICES

(5C)

## 24KT GOLD AND SELECT PLATE

To give your coin a more regal look, Osborne Coinage offers 24KT Gold plating and Select plating. Gold plating covers the entire coin, while Select Gold plating allows you to add gold to any specified raised area of the coin, leaving the coin’s natural metal color in the background. (Pricing is in addition to base metal coins. New custom dies only. 24KT select plating must be placed at time of order.)

## COLOR-FILL COINS

Enhance your promotion by adding color enamel to any of our metal coins. Our Color-Fill process allows you to color low relief areas of your coin to create a one-of-a-kind lasting impression. Pricing is per color, per side. Call for current pricing. (Pricing is in addition to base metal coins. New custom dies only. Color-Fill order must be placed at time of order.)

## Executive Gifts to Treasure

Need a unique gift for VIPs, major contributors, or to memorialize a building dedication? Then look no further than our new colorized fine silver commemoratives. Each coin is die-struck from one full troy ounce of solid silver. That's one step up from sterling silver. A patented process enhances the silver's beauty by adding amazing detail and brilliant color. Logos and photographic images reproduce wonderfully on these silver coins.

**PRICING NOTES:** The prices shown are the same whether striking one or two sides. Colorized coins come packaged in a capsule, velour jewelry box and sleeve. Assembly and packaging included in the price. No upcharge for more than 4 colors.

**LEAD TIME:** 6-8 weeks

*Enlarged to show detail.*

\$0.357 each (E)

ITEM #145

*All packaging is made to fit our custom coin sizes. Packaging can be ordered separately, but must be ordered in quantities of 250, with a handling charge of \$100.00 when ordered separately. Roll Wrapping, Weigh Count and Bagging in specific quantities is also available. Call Sales for quote.*

# DISPLAY OPTIONS

## MULTI-COIN DISPLAY BOXES

Display a series of coins in one of these distinctive multi-coin display boxes. Made out of the same steel, velour and satin puff as our Deluxe Velour Jewelry Box, these multi-coin boxes allow you to collect and display a two, three, or four coin set. Boxes are available in black velour. Each coin is packed into a removable Lucite capsule. Printing on the satin puff is also available. Please call Sales for pricing and information.

## CUSTOM COIN CARDS

Custom Coin Cards offer an exciting way to promote your next event. The high-quality, heavy-weight coin is skin-packed to a custom, die-cut card. Your company or team logo can be printed in up to four colors on one side and one color on the reverse side for maximum effect. The card serves as packaging and makes for easy distribution. Celebrate your company's event, new product rollout, building dedication, etc. with a custom coin skin-packed to a card. 5,000 piece minimum. Please call Sales for pricing and information.

# THE B.A.M.™ LINE OF MEDALLIONS

1.75"

2"

2.5"

## BIG IMPACT FOR LESS MONEY WITH B.A.M. MEDALLIONS

### LOW RELIEF (2-D)

They are die struck from heavy bronze and antiqued to bring out the detail of your design. Ranging in size from 1.75" to 2.5" in diameter, 2-D designs don't use as much metal. They give the same size impact as the 3-D medallions without the 3-D effect and price.

Good for 2 dimensional logos and copy where big size and a lower price really count.

**PRICING NOTES:** It takes 2 dies to make a medallion – one die per side. The prices shown are the same whether you strike one side or two sides. Price includes application of antique finish and lacquering to retard tarnishing. Custom-made dies are additional –see page 17 for pricing.

**PACKAGING:** Individual zip lock bag. Other options are available for an additional charge. Call Sales for more information.

**LEAD TIME:** 4-5 weeks.

(5C)

# DIE CHARGES

Die charges are per side and are in addition to the unit price shown in this catalog. Our master die sculptors engrave our coining dies. A combination of techniques is used to faithfully recreate your design in metal. Our engraving charges cover only a portion of the overall cost of producing working dies. Therefore, we retain title and possession of all dies and preparatory work. Dies can be shipped to the customer for a payment of 30% of the original die cost. One lead proof of each new ML & DR style die is furnished at no additional charge.

## STYLE-SL

Single-Level, Raised-Line Logos, Trademarks and Caricatures. Everything in the design is raised to the same level for a 2-dimensional effect. Lead proofs - \$ 45.00 (Z) or paper proof for no charge.

## COINS/KEYTAGS

\$195.00- \$235.00 (Z)

## B.A.M.™ LINE

\$400.00- \$500.00 (Z)

## STYLE-ML

Low-Relief, Multiple-Level Designs- crests, simple buildings and scenes for a 3-dimensional effect. One lead proof at no additional charge.

\$315.00- \$350.00 (Z)

\$500.00- \$600.00 (Z)

## STYLE-DR

Full-Sculpted, Deep-Relief Designs - buildings, scenes with a great amount of detail, busts and portraits. One lead proof at no additional charge.

\$500.00- \$1,800.00 (Z)

\$865.00- \$2,065.00 (Z)

## Artwork Preparation Charges

Simplify your project by having Osborne's experts prepare your artwork. We offer typesetting, touch up and photo conversion.

Typeset and send paper proof.	\$25 (1 or 2 sides)
Clean up low-resolution digital files and add curved copy.	\$50 per side (\$75 for 2 sides)
Re-illustrate photos as coin-ready vector images.	\$100 per side
New design from supplied reference materials.	\$125 per side

(z)

## General Artwork Instructions

**Big art is better art.** Larger images produce higher quality products.

Be sure to proof your art at actual size. Things look very different when you shrink them down.

Many images found on the Internet lack the quality and detail needed to engrave high-quality dies. A small jpg image may need to be cleaned up to make it acceptable for us to use. Poor quality equals more cleanup & higher cost.

Electronic art files should be **300 DPI** (dots per inch) or more. **Adobe Illustrator** is the best format, but no placed images please. To avoid font issues, **all vector art must be converted to outlines.**

Quark, MS Word or other word processor files are not appropriate for quality dies.

**Do not compress images** (zip, arc, sit, etc.), as it can create artifacts and data errors.

Our mail server handles **file attachments up to 10Mb**

Larger files can be uploaded to our Ftp site.

Artwork should be e-mailed to **artwork@osbornecoin.com.**

## Coins, Keytags, Medallions and Medals

All artwork shown in black will be raised on the coin. Half tones and shading cannot be reproduced on a coin and should be eliminated. For busts and detailed buildings, our engravers require line art as well as a photograph for reference. Please proof all artwork carefully. Changes made after a die is started may require engraving a complete new die at the customer's expense.
