Additional benefits of CNIJ's Magnetic Bracelets

- Pain relief
 - Swelling control
 - More restful sleep
 - Increased tissue oxygenation
 - Stress relief
 - Increased cellular oxygen level
 - Improved blood circulation
 - Improved anti-infective activity
 - Reduced water retention
- i.e. Removal of harmful toxins and improved circulation of oxygen, proteins and minerals in the body. This assists growth of healthy new cells and initiates the body to heal itself by its natural ability.

CUSTOM GIFT PACKAGING IDEAS

Add the final touch!

A perfect fit for a perfect image. Wrap it all up in a fine-tuned package, defining you to your clients.

CNIJ brings great packaging solutions for your gift-giving ideas. No matter the combination of products your clients choose we can create custom die-cut foam bases to fit your needs.

Enhancement Cards

Cards are a great way to enhance the pins or another products you'll mail or give to your clients. By putting your item on a card you expand your message opportunity. Consider using colorful graphics to create additional interest. These are often used as donation cards or thank you notes.

PRODUCTION PROCESS

Customer Service Rep.

There are many stages in processing an order for promotional products, starting at the point of sale, when the distributor sends a purchase order to CNIJ for one of many high quality and innovative products offered in our catalog.

The next stage is done by our customer service representatives, which is to analyze the order, check with the distributor for any missing information and, if needed, help the distributor with suggestions as to the best method required for a specific order.

At this point, an order confirmation is faxed to the distributor and the specifications are given to the graphic department.

Artwork

Artworks

Our professional artists will translate the distributor's artwork into a linear format suitable for production processes. The artwork is then sent to the distributor for approval and/or further modifications needed for final approval. Once this step is done, a work order containing all specifications is prepared for every stage of production.

Model and Mold making

Based on the approved artwork, 2D or 3D models are made with careful attention to all details and specifications. The model must be checked and transferred into the production mold.

Model & Mold making

- 2D models are 2 superimposed flat levels. This means some of the details or background will be raised and the rest will be recessed.

- 3 Levels/Multi-Levels models have many flat levels giving a similar look to 3D

Casting

- 3D models are divided into two categories. The first is the One-sided 3D, i.e., this means the front will be in 3D and the back will be flat or 2D. The other category is Full 3D, and in this form, the models are made as life-like as possible.

PRODUCTION PROCESS

Eco-Friendly

We at CNIJ believe in protecting everyone's health and safety by implementing new procedures specifically aimed at reducing the use of hazardous and harmful products. In an effort to keep our air and environment clean, we recycle most products and metals that can be; we use lead free pewter and zinc. We have also changed some production processes to eliminate the use of harmful chemicals. All this to develop more and more Eco-friendly products. At CNIJ, yes, we care!

Casting

The casting method we use is spin casting; the molten metal is poured into a machine which spins the mold. As with all other stages in production, all castings are inspected, assembled, sanded, etc... for any excess metal or sharp areas.

Pewter finishing

In order to get the rich look of pewter, the casting is oxidized (blackened) and then carefully hand-buffed. All pieces are lacquered for protection and a lustrous look.

Electroplating

We offer a large selection of bright and antique finishes to choose from. The plating process starts by inspecting the parts, putting them on racks and then going through several stages of plating until the final required finish is achieved.

Antique finishes

There are two ways to obtain antique finishes. One is the **Econo** finish, and in this process, machines are used to remove some of the oxidation. The second is **Hand polished**, and is done in the same way as the pewter finish.

EXPLANATIONS

Color fill

When colors are required, the process starts by mixing colors in order to get the proper PMS match. The application of colors requires well-trained personnel and precision work. The result is a color fill piece w/raised metal borders that will separate the colors.

Imprinting/Hybrid

When details are very small, or two colors are required to be laid one on top of the other (without any metal separation) a hybrid process is used. The first step is to color fill the background followed by pad printing on the colored surface.

PhotoArt

If an actual photo (4-color process) or a large amount of colors is required, as well as gradation of colors, the PhotoArt process is used. A printed label is made and cut according to the required shape, then applied onto the product and covered with a clear epoxy dome for protection and beauty (Where specified)

Solid Pewter

Pewter is an alloy consisting of mostly tin, is the fourth most precious metal. It also has very small amounts of antimony and copper which are added mainly for strength and/or color. The percentage of tin can vary from manufacturer to manufacturer, CNIJ pewter is 88% tin, we can also provide your clients with Lead Free pewter. The look and richness of polished pewter will make your clients reorder CNIJ made products many times over.

Die Struck

Die struck will give you jewelry quality, the surface is polished and the background is matte (Sand blasted). There are no imperfections. Die struck can be applied to pure metals like brass, copper, gold and silver

Quality control

Every stage of the order and production processes is accompanied by thorough quality control checks. A final check is done at the shipping department before products are sent to our clients.

TERMS AND CONDITIONS

ART WORK

Must be supplied in electronic vector format (Adobe Illustrator or CorelDraw) and all text and lines should be converted to curves, in order to reproduce your design exactly; otherwise artwork will be charged at a flat fee of \$50.00 (A). "PHOTOART"- client must supply proper image in high resolution. Artwork can be supplied by CD, e-mail (cnij@cnij.com) or FTP (call for instructions)

PRICES (Effective as of Feb. 2008. Valid until new catalog is printed)

All prices are F.O.B. our factory.

NEW ACCOUNTS & TERMS

A credit application is required from all new accounts, as well as 25% deposit for the first order. (The balance is C.O.D.) Terms applicable to established customers are net 30 days.

OVERRUNS & UNDERRUNS

Due to the nature of our business, we reserve the right to ship up to 5% over or under quantities ordered and invoiced accordingly. Orders requiring exact quantities are subject to a 5% surcharge.

TOOLS

All dies, molds, transparencies, etc... will remain at the factory; otherwise, the clients will incur additional charges.

SAMPLES

Finished samples can be produced at their initial cost plus set-up or die charges; samples charges will be refunded against the approved order without any changes. (Exclude printed setups)

DELIVERY

After art approval between 3 days and 4 weeks (See where indicated)

RETURN

A written authorization must be obtained from our factory before goods can be returned.

REDUCTION IN SIZE

Due to our manufacturing process there is a shrinkage of metal (3-5%) from our sample to the production pieces.

QUANTITIES NOT LISTED

Orders for larger or smaller quantities than those listed require a special quotation.

RUSH ORDERS

All rush orders must first be approved by our factory.

SPECIAL PROJECTS

For special projects, please contact our factory.

COPYRIGHTS & TRADEMARKS

C.N.I.J. assumes no responsibility for any copyright or trademark dispute. C.N.I.J. assumes customers have obtained permission to reproduce logos and trademarks.

RIGHT TO PROMOTE

We reserve the right to use all products in our advertising and displays, unless otherwise specified in writing at the time of the order.

DISCLAIMER

All items shown in this catalog are for photography purposes only and not for resale. Trademarks shown on said items are not the trademarks of C.N.I.J.
