At first glance - or touch - they're classical shirts, with the same velvety brushed surface you'd find on retail brands. But these easily meet the high-performance demands of your day. All seams are reinforced to be extra stress-resistant, and the fabric blend stays soft through wash after wash. Fashioned with shirtail hem and woodtone buttons.

Unless you shop in the designer department, you've never felt a piqué this luxuriously soft and pliable. But Jonathan Corey's comes without the designer price tag. Made from the finest, hand-picked pima cotton, it features top quality construction throughout. Shoulder seams are safety-stitched for extra strength. The hemmed bottom has side vents. And the finishing touch is pearl buttons.

- 7-7.5 oz. Twill
- 34" L x 28" W
- Double center patch pocket
- Tacked at all stress points
- Extra long ties
- Made in the USA
- 16 Colors

Aresco

FEATURES

- A plastisol inks system designed with a selection of HP (High Pigment) colors for dark fabrics, standard colors for light fabrics, and a softhand additive that can be mixed with ink to soften the feel of the print.
- Specifically formulated to help reduce ink build up on multi-color jobs.
- Economically priced, this ink is at its best on automated equipment although excellent results can be achieved in almost any printing operation.

1100 SERIES ATHLETIC PLASTISOL

A very durable, high-viscosity plastisol ink formulated for printing directly on most nylon athletic garments, 1100 Series inks also can be used for cold-peel transfers and as a flock adhesive. Available in 22 colors that match the most popular colors used for athletic garment printing.

International Coatings Company™ unveils its new **3804 Low Cure Additive** for textile screen printing inks.

3804 PF Low Cure Additive was developed in response to growing customer demand for a product that enables them to print on heat sensitive substrates, such as **100% polyester** or the very popular **non-woven polypropylene bags**.

- The addition of 3804 Low Cure Additive to regular plastisol inks can lower the cure or fusion temperature to 300° F (149° C) and in some cases, even to as low as 275° F (135° C).
- The 3804 Low Cure Additive is Phthalate-Free (PF)!
- 3804 Low Cure Additive provides new printing opportunities for the growing range of heat-sensitive substrates in the market today, such as materials that are prone to bleeding or dye migration when subjected to conventional oven or dryer temps.
- 3804 Low Cure Additive offers the ability to cure at lower temperatures thus providing greater control in preventing fabric shrinkage. Where spot drying is required, 3804 PF Low Cure Additive may also improve flash times.

Order the 3804 Low-Cure Additive today and try it for yourself!

International Coatings inks used for the bags pictured above:
 Black Bag:
 901 White mixed with 5% (by weight) 3804 Low Cure Additive.
 Red Bag:
 7505 Red mixed with 5% (by weight) 3804 Low Cure Additive.
 Both bags were cured at 270° F, for 1 minute.

Red polyester fabric printed with white ink: Top shows IC's **7041 Paramount White** low bleed ink, the lower half is printed with a competitor's low bleed white ink. Obviously, **7041 Paramount White** has superior blocking capabilities.

International Coatings Company™ recently introduced its new line of Senti soft-hand enhancers. The line consists of **3816 Senti Clear** – a soft clear enhancer, **3817 Senti Black** – a printing black used to achieve super soft hand prints and the **3818 Phthalate-Free (PF) Senti Curable Reducer** – a viscosity modifier and a soft-hand additive.

Although the Senti series products share some basic attributes, each offers its own unique features:

- 3816 Senti Clear can be mixed with finished colors or color concentrates or used as an extender base, curable thinner, or as a top clear coat for reducing fibrillation.
- 3817 Senti Black offers a deep black color that will look and feel similar to a water base print, and it works well with fine mesh counts.
- 3818 PF Senti Curable Reducer offers much improved hand over other viscosity-modifying products and extends yield when used as an additive, which in turn can reduce production costs. And it's phthalate free.

Mix 50% 3811 Granite Base,
 30% 96 LF Metallic Silver,
 20% 7468 Green color concentrate.

86 mesh. Print flash print.
 Cure @ 350 - 1 minute

Apply crinkled gloss paper with heat transfer machine using the following settings: 350 degrees, 35 psi, for 12 seconds.

That's it! A simple technique with a "wow" effect.

New improved Phthalate-free **3820 Direct Print Flock Adhesive** for textile screen printing. 3820 Flock Adhesive provides excellent adhesion to most flock fibers and a very soft and flexible flock print.

3820 Flock Adhesive was developed to provide strong flock adhesion that cures into a soft, elastic, pliable print. Comments from the large print production shops that beta tested 3820 Flock Adhesive noted the product as one of the best flock adhesives on the market today.

Four new fashion colors in the Metallic Shimmer line. The pre-mixed colors are **146 Ruby Red Metallic, 148 Royal Metallic, 149 Purple Metallic and 147 Green Metallic.**

"We've created the new Metallic Shimmer colors in response to emerging fashion trends and growing customer demand for metallics and shiny garment decorations" said Steve Kahane, President of International Coatings. "Our Metallic Shimmers are pre-mixed and contain the highest grade shimmer flakes available, to provide a brilliant metallic shine."

The new Metallic Shimmers add a bright, non-tarnishing metallic sparkle to printed garments. The inks contain fine, shimmering glitter flake in a low bleed, low fusion, easy-to-print base that performs well on automatic and manual printers.

Metallic Shimmers also includes 156 Metallic Silver, 157 Metallic Gold and 158 Metallic Copper.

Frog print

This multi-colored print required 9 screens.
 1 @ 110 mesh,
 8 @ 230 mesh

Cured @ 350 - 90 seconds.

A

NEW ITEM!

Style QSUPRA

EasiStrip SUPRA™ One Step Ink Cleaner & Emulsion Remover

- Dissolves & cleans inks, emulsion & blockout in one step
- No odor
- No hazardous substances, no TLV's or PEL's, not SARA reportable
- No VOC's making it safer than solvents for air quality concerns
- Non-flammable, safer for handling, storage & rag disposal than conventional solvents
- 1 Gal. or 5 Gal.

B

NEW ITEM!

Style Q842

PlastiSolv™ 842 Screen & Press Wash

- Virtually odor free
- Dries fast
- Economically priced
- Will not "lock in" photopolymer emulsions or films
- Quickly dissolves all textile inks without residual stains of harsher screen cleaners
- Non-flammable (flash point of 142° F)
- Contains no hazardous substances, no TLV's or PEL's
- Not SARA reportable
- May be applied manually, recirculated through the EasiFlo™ System or recirculated in enclosed automatic screen washing systems
- 1 Gal. or 5 Gal.

C

NEW ITEM!

Style Q701

EasiSolv™ 701 Stain Remover & Degreaser

- Dissolves all inks & ink stains quickly
- Non-flammable (flash point of 196°F)
- Low-foam product with biodegradable detergents
- Low odor, no hazardous substances (no TVL's or PEL's)
- Not SARA reportable
- May be applied manually, recirculated through the EasiFlo™ System or recirculated in enclosed automatic screen washing systems or simply used in trays or dip tanks
- Can be applied to a wet screen & used as a Stain Remover & Degreaser
- 1 Gal. or 5 Gal.

D

NEW ITEM!

Style Q500

EasiSolv™ 500 Concentrated Stencil Remover

- Does not ship as a hazardous commodity so reduces cost
- Most flexible concentrate in the industry (Mixes from 1:10 to 1:30 with water)
- Biodegradable, eco friendly, renewable & work place approved
- Disperses readily with water & stays in solution
- Packed with additives so it Degreases as it dissolves stencils
- Easily used in a dip tank as an emulsion remover
- 1 Gal. or 5 Gal.

E

NEW ITEM!

Style QPT506

14 Gallon Polyethylene Dip Tank

- 24" W x 30" H x 4.5" D
- Tank holds 2-3 screen frames (23" x 28")
- Includes lid & screen hold down rods

F

NEW ITEM!

Style QPT520

37 Gallon Polyethylene Dip Tank

- 30" W x 36" H x 8" D
- Tank holds 3-4 screen frames (25" x 33")
- Includes lid & screen hold down rods

EasiStrip SUPRA™ Application Methods

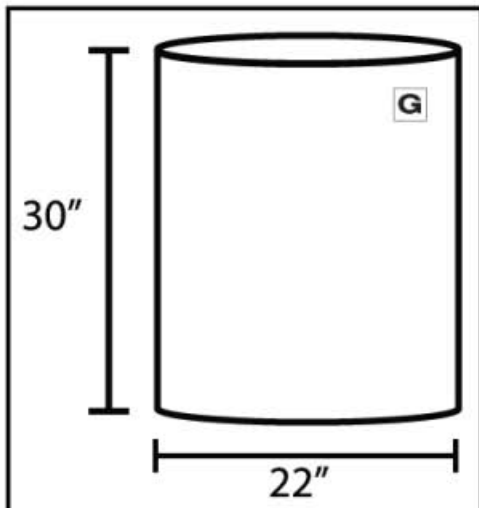

(For Textile & UV Graphic Applications)

METHOD #1 - Manual Application

- Apply **EasiStrip SUPRA™ One Step Ink Cleaner & Emulsion Remover** to both sides of screen (print side first, then the ink side) & scrub
- High-pressure water rinse both sides
- Apply **EasiSolv™ 701 Screen Wash/Stain Remover/Degreaser** if necessary & scrub
- High-pressure water rinse both sides
- Flood (low-pressure) rinse

METHOD #2 - Dip Tank Application

- Put screens into the dip tank (1-part EasiStrip SUPRA™ mixed with 4 of 5 parts water)
- Remove the screens from the tank & transport to the washout booth
- High-pressure water rinse both sides
- Manually apply **EasiSolv™ 701 Screen Wash/Stain Remover/Degreaser** if necessary
- High-pressure water rinse both sides of screen & frame
- Flood (low-pressure) rinse

G

NEW ITEM!

Style G200PT

Ultra Cotton® Test Printing Tube

- 6.1 oz. 100% Cotton Preshrunk Jersey
- Test your prints on the industry's best selling, best performing print surface
- Tubular construction & no side seams to maximize number of test prints on each tube
- Sized to ideally fit screen print platens
- 3 Colors
- 22" W x 30" L

A

NEW ITEM!

**Style QQTX00
QTX® (Photopolymer Emulsion 48% solids; pink color)**

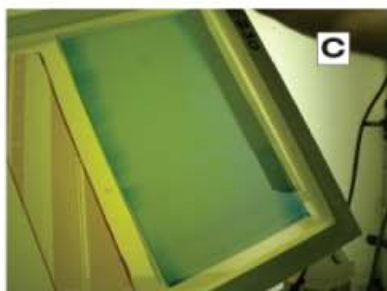

- Ulano's best-selling emulsion is ideal for imprinted sportswear applications
- High solids provide superior coating properties, better bridging of coarse fabric, and fast drying
- Creates durable stencils; reclaims easily
- 1 Gal.

B

NEW ITEM!

**Style QQLT00
QLT™ (Photopolymer Emulsion 44% solids; blue color)**

- Ultra-fast exposing, pre-sensitized (SBQ) imprinted sportswear emulsion
- Formulated to shorten stencil-making time (coating, drying, and exposure)
- High solids content facilitates thick build per coat and quick drying times
- Stencils are wear resistant and will not become tacky under high humidity conditions
- Adding diazo will improve water resistance.
- 1 Gal.

C

NEW ITEM!

**Style QPROCL
Proclaim (Dual Cure Emulsion; 38% Solids; light blue color)**

- Provides unequalled exposure latitude and ease of reclaim, even if underexposed and used with aggressive inks and cleanup solvents
- 1 Qt. or 1 Gal.

D

NEW ITEM!

**Style Q60000
Screen Filler No. 60**

- Safe water-soluble blockout suitable for all non-aqueous inks
- Can be used for touchups when thinned with cold water
- 1 Qt.

E

NEW ITEM!

**Style QP1JF8
Pigment Inkjet Film 8.5 x 11
Style QP1JF1
Pigment Inkjet Film 11 x 17
Style QP1JF4
Pigment Inkjet Film 17 x 22**

- Can be used with off-the-shelf pigment inks
- Special Ulano inkjet-receptive nano-porous coating on 125µ (5-mil) clear polyester formulated to control the shape of fine lines and halftones with pigment or dye inkjet inks
- Coating does not reduce UV transmission and is water-resistant to prevent smearing under high humidity conditions
- Compatible with the industry standard Epson Stylus Photo 1400 and R1900, Stylus Pro models 3800, 4880, 7880, 9880, earlier models in each Epson series, and other similar pigment inkjet printers
