The items in this section are still the top quality, hand assembled in the USA products that you are familiar with; however we have held the prices down so your customer can have the new essentials they need and not feel the pinch in their pocket! Look for the Value Style as you go through the catalog.

Manufactured in the USA and very proud of it! Yes, we assemble all of our products here in the USA; it may cost us a bit more, but we like knowing that we are doing what we can to help support our neighbors! Look for those items with the flag to show which materials are also made in the USA!

In an effort to make our green-friendly items easier to locate, we have added the recycled content percentages where applicable. Look for our recycle logo!

Metallic Menu Covers

Add sparkle to your table with metallic menu covers. Covers have outstanding surface wear and strength, and can be customized with foil stamping

P. 6

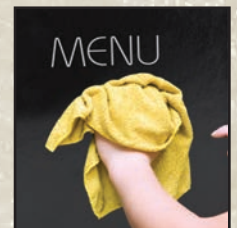

CUSTOMIZED EMBROIDERY

Make your logo stand out with an embroidered menu cover! Customize your order by choosing from our 28 thread colors.

P. 17

To Clean Your Menu Covers:
Use a soft damp cloth and rub gently to remove any product. Using harsh chemicals or leaving your menu sit with water on them will shorten the life of your menu. For stubborn products, use a soft cloth with warm water and rub gently until product is removed.

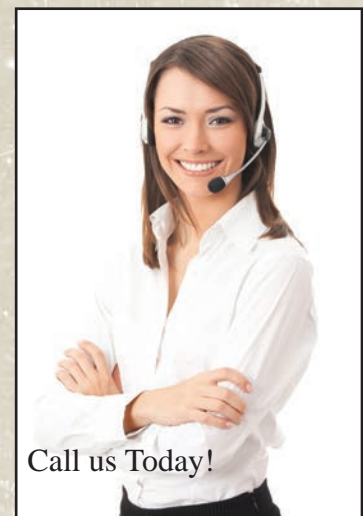

Dinner Menus

Menu Information

- Pricing includes 1-position foil stamp, silkscreen or blind deboss imprint when available
 - Foil die charges are listed on page 44
 - Custom sizes and views are available upon request
- Average production time for menus is 6 working days unless noted

 - Prices are effective January 2013

1730 James Drive
North Mankato, MN 56003

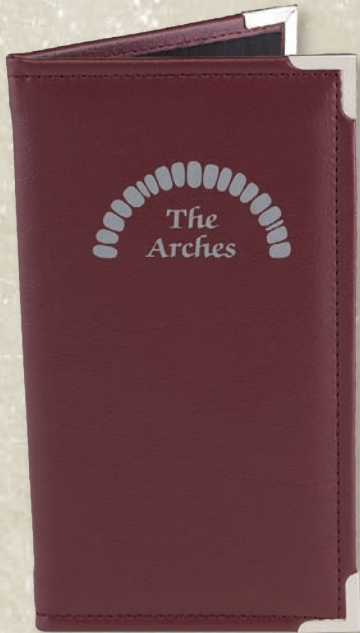

DON'T SEE WHAT YOU ARE LOOKING FOR?

JUST ASK!

WE OFFER CUSTOM SIZES AND OPTIONS IN MANY OF OUR PRODUCTS

CUSTOM DESIGNED MENU COVERS

Our boundless areas of expertise allow us to craft the perfect Menu Covers; from economical to fine dining, let us help you create the perfect Custom Menu Cover!

CUSTOM CHECK PRESENTERS

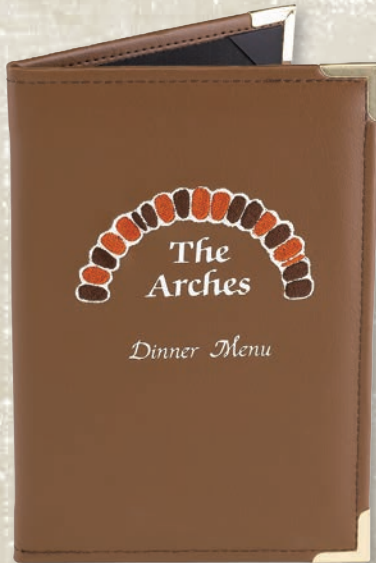

Enhance your customers dining experience with a custom matching check presenter. (Explore our vast selection of check presenters throughout our catalog.)

MORE THAN TABLE TENTS

Making any size table tent is our specialty. Custom table tents are popular for seminars, reserved seating at banquets, buffet tables, weddings, and even use them to PROMOTE YOUR BRAND!

Be unique. Be unusual. Be unexpected.

CUSTOM IMPRINT OPTIONS

Spice it up! Our standard imprint options are phenomenal, but if you'd like to enrich with a twist, add embroidery! This Custom Menu Cover features an archway that was embroidered for color and texture. It also includes text that is foil stamped giving the menu cover a crisp, clean finish.

QUARTERBOUND MENU COVERS

We've taken our standard majestic linen cover shown on page 9 and made it stand out in the crowd. The soft burgundy linen, paired with the bold black vicuna material, creates a look that is sure to impress!

FULL-COLOR MENU COVERS

Customize your Majestic Menu Covers with any design and size you want. Send us the art and we will create a beautiful, long-lasting, full-color menu for you! Make your Menu Cover mouthwatering!

*Pre-production samples not available

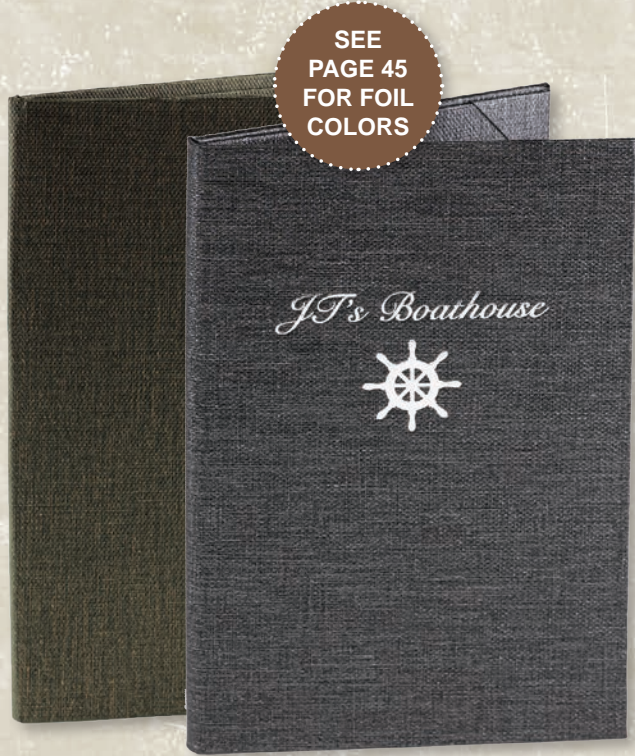

It is our mission to successfully satisfy our customers with their custom needs. In doing so, we are delighted to provide you a required pre-production sample. We will process your order as requested once approval from your pre-production sample is received.

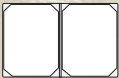

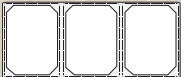

Be unique. Be unusual. Be unexpected.

There is an additional charge for dies; see page 44 for special charges. Custom sizes and views are available upon request.

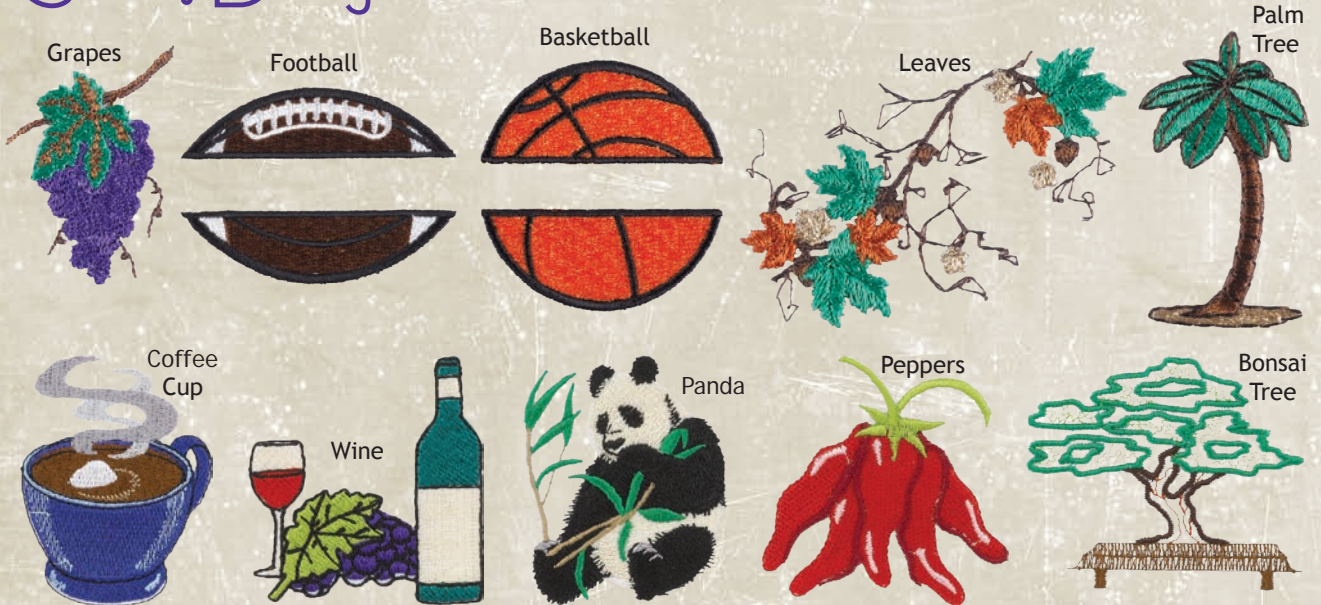

Create Your Embroidery From Stock Images

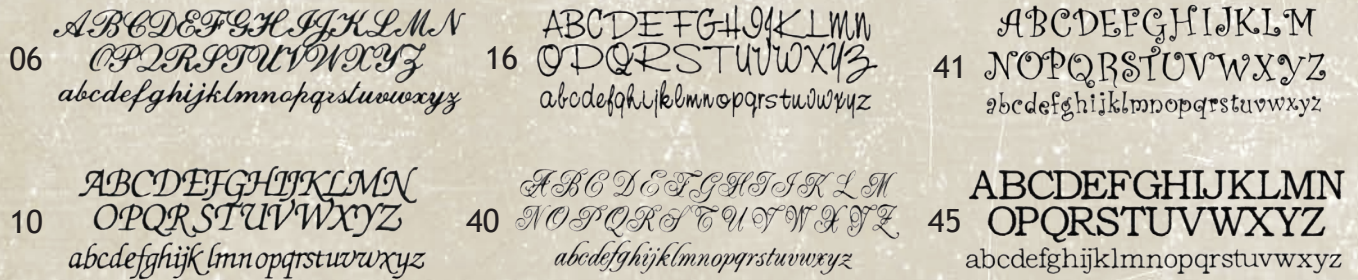

Choose from any of our Davenport Supreme or Tiffany menu covers shown on pages 18-21, or choose a guest room directory from page 38 to start designing.

Choose from our stock designs and fonts, or submit your own logo or graphics.

Stock Designs Additional stock designs available. Please contact customer service.

Stock Fonts Additional fonts available. Please contact customer service.

Embroidery Maintenance

All finished embroidery designs are sprayed with a fabric and upholstery protector to preserve the life of your menu. We recommend that you reapply a fabric and upholstery spray annually, or after getting the product wet.

Or Design Your Own

Embroider your custom design by sending us a high-resolution jpeg and we'll take it from there. Colors will be matched as close as possible from thread colors listed below. For custom embroidery pricing, please contact customer service to obtain a quote.

Production and Proofs

- Production time is 11 days for quantities of 300 or less
- Larger quantities may take longer
- Proofs are available for placement only

Cleaning Your Menus

To preserve the life of your menu and keep the colors bright, please use only a damp cloth when cleaning. Chemicals and soaps will harm the finish and dull the colors.

Thread Colors

SEE PAGE 45 FOR FOIL COLORS

Ostrich Menu Covers

- Exotic leather ostrich imprint detail
- Supple soft feel with exceptional strength and durability
- PVC-free vinyl on a mildew resistant woven backing
- Embroidery available for an additional charge; see pages 16-17

Multi-Flex menu covers are a popular choice for those looking for durability, elegance and affordability. They feature premium, heavyweight cover material. Menu covers come pre-scored for easy folding and fold endurance. They are also known for their surface strength and surface smoothness. These menus feature latex and fiber composite with a pigmented acrylic latex coating. Menus come with your choice of gold or silver metal ball elastic cords. Menu pricing includes one 1-position imprint.

DOUBLE NEEDLE-LOCK STITCHING

Leatherette Menu Covers

- Newport menu covers are a mix of two of our most popular menu cover styles
- The inside of these menus resemble our classic menus on page 14, having matching vinyl corners on the inside to hold your menu inserts securely in place
- The outside cover resembles our leatherette sewn menus on page 26 by having matching vinyl sewn edging around the cover
- Premium, heavyweight material for endurance and surface strength
- Latex and fiber composite with a pigmented acrylic latex coating
- Foil stamp and silk screen
- Corners are protected with your choice of gold or silver scalloped metal edges
- Menu pricing includes 1-position imprint
- Please insert color selection when ordering
Example: Item # 1M3-MCL-81N4B-BY*

Vinyl Sewn Menu Covers

**DOUBLE
NEEDLE-LOCK
STITCHING**

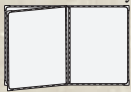

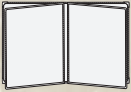

Custom sizes and views are available upon request.

Vinyl Sewn Menu Covers

- Colored vinyl contains durable, mesh-like supported backing
- A heavy, clear vinyl gauge is used to improve resistance to warping
- Double needle-lock stitching with bonded nylon thread gives added strength over single-stitch methods
- Scalloped metal corners available in your choice of gold or silver; please indicate corner color
- The clear vinyl pages showcase your menus with clarity and quality
- Vinyl Add-A-Pages are also available to expand menu covers easily; see page 31 for more details
- Please insert color selection when ordering
Example: Item # 1M3-MVS-81N2B-BK*
(color)

Leatherette

Add a professional and organized touch to your gift certificates with a spiraled gift certificate book. Certificates are sequentially numbered and come with complimentary envelopes printed with "A Gift for You." Perforated certificates detach from the stubs for easy record keeping.

A.

A. Single Gift Certificate Books

These slender, 10" x 3 3/8", spiral-bound books contain 50 **perforated certificates** per book and feature ebony leatherette covers imprinted with silver foil as shown in photo. Individual certificate size is 7 3/4" x 3 3/8". Envelopes are included for each certificate.

Personalize your certificates with up to four lines of copy set in Helvetica typestyle, black ink only.

Item Number	2 Books (100 Cert.)	6 Books (300 Cert.)	12 Books (600 Cert.)	24 Books (1200 Cert.)
1M3-CGC-102BK	\$76.50	\$175.25	\$199.00	\$271.00

(T)

B.

B. Triple Gift Certificate Books

Keep more certificates on hand to sell to customers. These 8 1/2" x 11", spiral-bound books feature 3 **perforated gift certificates** per page for a total of 150 certificates per book. The merlot leatherette cover will be imprinted in elegant gold foil as shown in photo. Designer envelopes are included for each certificate.

Personalize your certificates with up to four lines of copy set in Helvetica typestyle, black ink only.

Give Your Guests an Inviting Reference

Keep your guests happily informed -- provide them with an enticing guest room directory that includes essential and helpful details about your business. These turned edge binders feature padded covers with a silver metal ring binding on the inside. The cover's outside material is folded slightly over each edge during construction and stitched around the binder's perimeter; this leaves a stylish outline along the inside black moire, vinyl lining. Square corners are secured with silver or gold metal edges to protect them from bending, keeping them looking great for many years. The directories accommodate 8 1/2" x 11" inserts and include two inside pockets for pamphlets and other small advertising pieces. Pricing includes a 1-position imprint. See decoration section below for imprint options or page 17 for embroidery options.

There is an additional charge for dies; see page 44 for special charges.

__* Insert stock color from page above.

Glassware shown on page 37.

Art Charges: If your layout requires special attention or your artwork is unsuitable for reproduction, we will make the necessary changes for a minimum charge of \$25.00 NET. You will be notified if the charges will exceed \$25.00 NET. A two-color logo requiring color separation will receive a minimum charge of \$15.00 NET. Electronic Art: Production time does not start until your file(s) have been approved.

Changes or Cancellations: Changes to orders in progress may require additional charges and/or time with the service charge reflecting the amount of work already completed. Cancellations after an order is in progress will require payment for work completed

Proofs: Black and white proofs are available for \$16.00 (R) each. Printed press proofs are available upon request. Please call for a quote. Production begins after we receive signed proof authorization. Proofs are not available on embroidery items.

Rush Orders: If the production schedule allows, charges for rush orders are based on time constraints and complexity of the order. Please contact us for a quote.

Decorating: All imprinting must be a minimum of 3/4" from the outside edges for stitched products and 1/2" from the outside edges and rivets for standard heat-sealed products.

Foil Stamping: Foil stamping uses a die, a metal cast of the artwork, and heat to adhere a flat image onto the the vinyl.

Blind Debossing: A metal die is electronically pressed into the surface of the material creating a debossed (depressed) image.

Foil Debossing: Combines foil stamping and blind debossing. The foil is stamped onto the vinyl and a metal die is used to depress the imprint that is foil-color filled.

Die Types: Magnesium Dies: These single-level dies are used for foil stamping and debossing. All dies are recycled. Dies will not be returned unless requested during placement of order.

Die Charges: Use the following guidelines to determine your die cost. Dies are \$46.50 (V) minimum, up to 20 square inches and \$2.05 (V) for each additional square inch. Charges for dies vary according to the size of your design. Send actual sized artwork or sample for an estimated die charge.

Additional Die Setup: If more than one die is used, an additional \$46.50 (R) set-up charge is required.

Decorating Guide: Die costs are figured by the size of the die. The checklist below will guide you through figuring out your die size. We used the example of foil in the samples below, however the same can apply to debossing.

- How many areas of foil? If there is 3 1/2" of space in between the areas of foil, then each foil area is a separate die charge, and a 2nd die set-up charge will also apply.
- Measure the height and the width of the foil area.
- Multiply the height by the width to get your total area size. Example: 2" x 2" = 4 square inches.
- Figure the die size for each area. There are additional die set-up charges for orders with more than one die. The maximum recommended square inch stamping area is 20" for one position.

Silk Screening: The process of printing using a mesh screen that has your desired artwork burned into it. Printing is done by forcing the ink through the mesh screen. There is no set-up charge for silk screening. If an imprint color match is vital to your project, we recommend the use of white vinyl.

Registration: Registration is when two ink and / or foil colors touch or when there is no tolerance for movement. Hot-stamping / debossing in more than one color in close registration is not available. Please call for a quote if artwork requires two ink colors in registration.

Bleeds: A bleed is a printed image that extends off the edge of the vinyl. There will be an additional charge if artwork does not bleed a full 1" beyond the product size.

Screens: A screen or halftone is a dot pattern of a solid ink color that makes that color look lighter. For example, when red is screened it looks pink. Graduated screens are areas of color that gradually change their density from light to dark. Standard screen percentage is 50% to 75%. The number of lines per inch in a halftone image is called a line screen.

Sample Requests: Standard samples (items shown in our catalog) are available at no charge and are shipped standard ground method. Allow 5 working days for sample production requests.

Custom Sample Requests: Custom samples (tailor-made to your specifications and not shown in our catalog) are available at cost. Allow 7 working days for sample production, provided materials are in-house. If materials are sourced, allow additional time. Please call to request a quote.

Production Time: Production time is 6 working days unless otherwise noted. Production time starts after receipt of approval of artwork for quantities up to 500. Orders over 500 require additional time and special pricing; please call for a quote.

Receiving Files - preferred methods

Adobe Illustrator - PC

- All fonts must be converted to outlines.
- If you are using an imported graphic in your Illustrator document be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high-quality or good vector art to receive the best quality printed product.
- Save the file as an Illustrator EPS or AI file.

Adobe Photoshop - PC

- Files must be saved as a TIFF file.
- Submit black and white bitmap images at 600 dpi or higher and grayscale images at 600 dpi or higher for standard spot printing.
- For full color printing or Multicolor inks, CMYK images need to be submitted at 600 dpi or higher.
- All files need to be submitted at the size being used for printing.

Full-Color Process Printing:

- Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.)
- If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically

Submitting Your Files:

- We can also accept your files on a ZIP disk or CD. DO NOT send us the only copy of your file. The disk could possibly be lost or damaged going through the mail. A copy of the original is preferred.
- Do not send artwork from word processors (Microsoft Work, WordPerfect). They are not high quality and will not produce.
- Do not e-mail files larger than 2MB.

*Please indicate positioning of artwork and point size for typesetting.

Rights to Promotion: We reserve the right to use any items which we produce in our advertising, displays, and sample requests, unless you specify otherwise, in writing, at the time you place your order.

Ink & Foil Color Options

All standard inks are gloss (coated) inks. Inks are not completely opaque. Avoid light-colored inks on dark vinyl due to the ink discoloring. Special ink colors are available for an additional charge of \$55.25 (R) per item, per color selected from the Pantone Color Formula Guide.

Ink Colors:

Foil Colors:

Pigment Foil Colors:

NOTE: All foil colors shown above are metallic with the exception of pigment colors. Gold and silver are available in a Satin (matte) and Metallic (shiny) finish. If the finish is not indicated on your order, we will use our best judgment to select the proper finish for attractive presentation products. Special foil colors are available for an additional charge.

The items in this section are still the top quality, hand assembled in the USA products that you are familiar with; however we have held the prices down so your customer can have the new essentials they need and not feel the pinch in their pocket! Look for the Value Style as you go through the catalog.

Manufactured in the USA and very proud of it! Yes, we assemble all of our products here in the USA; it may cost us a bit more, but we like knowing that we are doing what we can to help support our neighbors! Look for those items with the flag to show which materials are also made in the USA!

In an effort to make our green-friendly items easier to locate, we have added the recycled content percentages where applicable. Look for our logo!

TALLY BOOKS

Tally books are great for oil fields, electric companies, construction sites, power companies, surveyors, truck drivers and much more! Available in a variety of colors and in both our Senior and Junior sizes.

P.42

EMBROIDERED ELITE PADFOLIOS

Make your logo stand out with an embroidered Elite padfolio! Customize your order by choosing from our 26 thread colors.

P.35

INSURANCE WALLETS

Keep your important documents close with vinyl insurance wallets. Insurance wallets are also great for registration information, maintenance records, and mileage logs.

P.38

DON'T SEE WHAT YOU ARE LOOKING FOR?

JUST ASK!

WE OFFER CUSTOM SIZES AND OPTIONS IN MANY OF OUR PRODUCTS

CUSTOM CERTIFICATE COVERS

Our custom certificate holders are very popular with photographers, sports and academic teams, and country clubs. Certificate covers can be customized to fit any size insert. Combine with a photo for great personalization!

THREE QUARTER-BOUND BINDERS

Take one of our standard binders and add a little pizzazz! This is our Soft touch binder shown on page 7 with a custom cut material added to create an "Exotic" look.

4-COLOR PROCESS BINDERS

Make it your own! You'll love our 4-color process binders that are laminated with a gloss finish; this custom Turned-Edge Binder is sure to provide long-lasting impressions, personalized with your company artwork.

*Pre-production samples not available

Be unique. Be unusual. Be unexpected.

VINYL FOLDERS AND PADDED VINYL FOLDERS

Vinyl folders are made from the same durable vinyl you've come to love from our vinyl binders. We've designed a vinyl folder with padding for extra durability, and for a professional look that is sure to meet your storage needs.

CUSTOM-SIZED BINDERS

Think outside the box with custom binders. This custom-sized binder has bright Linen material with custom holographic foil and holds 11" x 5 1/4" papers. Choose a material we show in the catalog, or let us look for custom material for you. Custom binders are perfect as display binders!

EMBROIDERED DIPLOMA COVERS

We've taken embroidery a step further. This certificate cover was assembled with the same material and care we use on our padded and stitched binders shown on page 12. By adding the embroidered logo, this cover became something anyone would be proud to display in their home or office.

It is our mission to successfully satisfy our customers with their custom needs. In doing so, we are delighted to provide you a required pre-production sample. We will process your order as requested once approval from your pre-production sample is received.

Be unique. Be unusual. Be unexpected.

TURNED-EDGE Binders

LEATHERGRAIN

Our Leathergrain material is heavy-duty, latex-saturated paper with strength, durability and beauty making this material ideal for Turned-Edge Binders.

Bonded Leather

TURNED-EDGE BINDERS

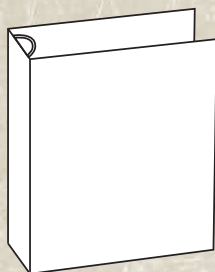

Our Turned Edge Binders convey a high-end image of your company, while simultaneously delivering durability and style. They earned their name simply by showcasing cover material that is “turned,” or rather folded, inward over a high-density board and then lined. This form of construction reinforces the edges, creating a stronger, longer-lasting binder. Choose from a variety of materials in eye-catching colors, textures and finishes. With our endless options and material choices, you can customize these binders to portray your company’s image with great success!

IMPORTANT FEATURES

- Black or white liners with a lightly embossed finish are included in the price of the binders; please specify color preference when ordering
- Materials: Leathergrain, Soft Touch, Sturdite, Linen or Bonded Leather
- Rivets are concealed
- For an additional charge, a liner to match your cover material may be chosen instead

Holds: 8 1/2" x 5 1/2" documents

SCOTTSDALE SUPPORTED VINYL

Ultra soft, leather-like feel
of durable calfskin.

PADDED AND STITCHED

These binders feature padded covers with stitching detail for an impressive look and feel. The material is folded slightly over each edge during construction and stitched around the binder's perimeter. Square corners are secured with metal edges to protect them from bending, keeping these binders looking great.

Please insert color selection when ordering

Example: Item #: 1P3-BTE-SC5-__*
(color)

IMPORTANT FEATURES

- Binders accommodate 11" x 8 1/2" and 8 1/2" x 5 1/2" documents with a 1/2" tab allowance
- Custom binders are available upon request
- Chrome, spine-mounted round rings with boosters are standard
- Rivets are concealed
- Black-moire, vinyl liners are included in the price of your binder
- Metal corners are available in your choice of gold or silver
- Single pocket will be added to the inside back cover unless otherwise indicated

Dimensions are to outside edges of the heat-seal.
All imprinting must be at least 1/4" from the inside seams and rivets.

IMPORTANT FEATURES

- Standard and Small binders accommodate 11" x 8 1/2" and 8 1/2" x 5 1/2" documents with a 1/2" tab allowance
- Vinyl: Suedene-see page 47 for color options
- Round rings are mounted on the spine
- D-Rings are mounted on the back cover
- Rivets are concealed
- Pricing includes clear overlay on the front, spine and back
- Overlay is sealed on three sides, with an opening at the top of the binder
- Quantities of 500 or less have a three day production time
- 2 pockets are included in price

CASE DIMENSIONS

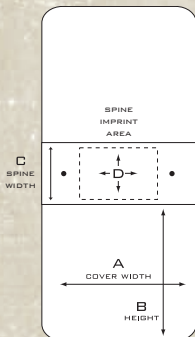

FLIP-TOP EASEL BINDERS

The Flip-Top Easel binder is perfect for any desktop presentation! A three-ring mechanism holds material, while the triangle forms a sturdy surface. Close cover into place for storage. For greater durability and strength, a high density (100-120 pt) board is used giving you a longer-lasting binder. There is an additional charge for dies and special inks, see page 46.

IMPORTANT FEATURES

- Vinyl options include French Calf and Suedene materials
- See page 47 for vinyl, ink and foil color options
- Binders accommodate 11" x 8 1/2" documents and feature a chrome, spine-mounted round 3-ring metal with boosters
- Mini size binders accommodate 3 1/2" x 5" recipe card inserts and feature a round 2-ring with a boosterless metal
- Liner matches your cover material
- Vinyl sheet protectors are also available; see page 27

POLY BINDERS

Poly binders are extremely durable, lightweight and provide an economical way to organize information. With poly binders, you select the thickness that is right for your application from a thin flexible weight, to a heavier thickness.

IMPORTANT FEATURES

- Four gauges are available for standard binders
- Two gauges are available for small binders
- Binders accommodate 11" x 8 1/2" and 8 1/2" x 5 1/2" documents with a 1/2" tab allowance
- Chrome, spine-mounted round rings with boosters are standard
- Rivets are exposed on spine
- Additional gauges, sizes and rings are available upon request. Please contact us for a quote
- See page 21 for colors and case dimensions
- Please note the ring sizes available for each gauge
- Please allow 15 working days for production

MARBLE Binders

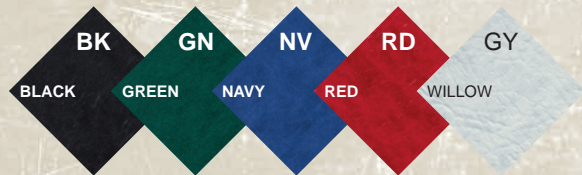

MARBLE BINDERS

Our new Marble binders are very durable and have 60% recycled fiber content! We have 5 vibrant colors to brighten a work place and yet light weight enough for students to carry around. The glossy pressed paper binders have marbling in the paper for a random texture pattern, which gives them a finished look.

- Our 20 pt. Marble Binders can accommodate 11" x 8 1/2" and 8 1/2" x 5 1/2" paper sizes
- Chrome, spine-mounted round rings are standard
- Rivets are exposed on spine
- These are beautifully foil stamped
- Recognize your employees and students when coordinating certificate covers shown on page 31
- Premium stocks are available for an additional cost
- Please insert color section when ordering

Example: 1P3-BPM-5-__*

MYLAR TABS

Mylar tabs are built to last and priced to fit your budget! Our durable, 90 lb. sheets have reinforced holes with tear-protection edges and fit in all standard and small three-ring binders.

IMPORTANT FEATURES

- Sheet size: 11" x 8 1/2" or 8 1/2" x 5 1/2"
- 90 lb., white index stock with square corners
- Tab copy typesetting included in your choice of typestyle
- If typestyle not indicated, Swiss Bold Caps will be used
- Choice of 5 tab copy positions (see diagram on page 25)
- Maximum of 2 lines of copy per tab, printed on two sides in black ink
- Tabs extend 1/2" from sheet edge
- Sheets come with three 5/16" diameter round holes and a 5/8" reinforced binding edge
- Clear or colored Mylar (see mylar color options to the right)
- Tabs are packaged uncollated
- See page 25 for additional popular sizes

Mylar color will change if applied to colored paper.

BINDER Rings

A variety of D-Ring styles and capacities are available to fit your needs and binder size. D-Rings allow the paper to lie flat in the binder. See page 45 for capacity chart to give you a guide as to how large of ring you should order based on the number of sheets of paper you expect the binder to hold.

ITEM #	CAPACITY	50	100	250	500	1000
METALS EXPOSED RIVETS WITH BOOSTERS D-Rings are available in straight D or Angle-D styles, mounted on the back of the binder.						
DRING75IN	D-RING 3/4" * (applied to a 1" binder)	\$0.55	\$0.55	\$0.55	\$0.55	\$0.55

(R)

* Not available on easel binders or 8 1/2" x 5 1/2" small vinyl binders.
 ** Angle D-Rings will not allow for a 1/2" tab allowance.

ITEM #	CAPACITY	50	100	250	500	1000
METALS RIVETLESS WITH BOOSTERS Rivetless rings allow spine copy to extend to the edge of the binders. Rings are a rivetless, prong-bushing style, gripping tightly to the board, allowing for strength and stability. Round rings will be mounted on the spine. D-rings will be mounted on the back of the binder.

Indicate stock color from above.

BINDER Information

Use the information listed below to help determine the approximate number of boxes that you can expect on your binder, padfolios and certificate cover orders. Then use the weights that are listed to figure out the estimated cost for your order shipment. Please contact Customer Service for additional information.

Under normal circumstances, orders are shipped with UPS ground service. Depending on weight, number of boxes, and box sizes, orders may be shipped prepaid UPS Freight or common carrier trucks. Please allow appropriate shipping time (3-4 days) from Minnesota to your "Ship To" location.

PADFOLIOS

PADFOLIOS PER BOX	WEIGHT PER BOX	BOX DIMENSIONS
16	26	10 ⁷ / ₈ " x 12" x 13 ¹ / ₂ "

During cold weather months, please allow boxes with the "Cold Affects Vinyl Products" label on to sit in a warm weather environment for 24 hours.

VINYL BINDERS

RING SIZE	BINDERS PER BOX	WEIGHT PER BOX	BOX DIMENSIONS
1/2"	16	16	10 ⁷ / ₈ "x12"x13 ¹ / ₂ "
3/4"	24	32	10 ⁷ / ₈ "x12"x13 ¹ / ₂ "

Typestyle sizes range from 12 to 100 point. The typestyles shown below do not represent the size that will be printed on your products. The standard typestyle is Swiss Bold, shown below. If a typestyle is not indicated, Swiss 721 Bold will be used. Please indicate positioning and point size for typesetting. If no point size is given, we will use our best judgment to select the proper size for attractive looking presentation products. If your order calls for a lot for copy on an item such as index tabs, the type must be set smaller. We recommend no smaller than 8 point size for ease in reading.

HOW TO ORDER BINDERS

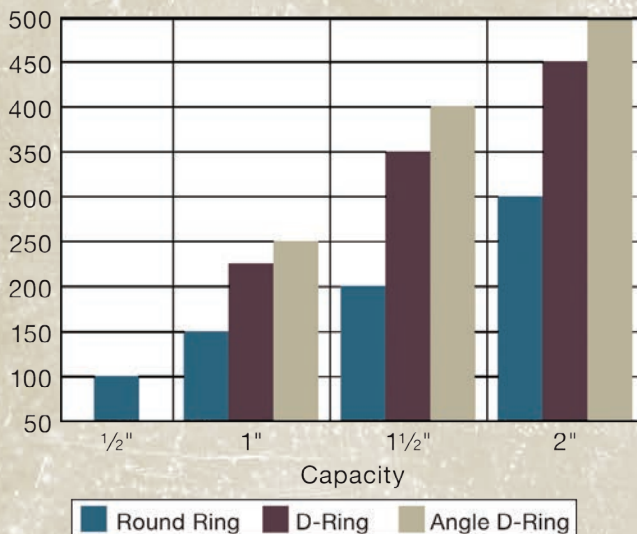

1. SELECT A BINDER STYLE FROM PAGES 3-22

2. CHOOSE A BINDER RING SIZE: The capacity chart below will give you a guide as to how large of a ring you should order based on the number of sheets of paper you expect the binder to hold.

Most binders should provide for expansion of 10-25% whether or not additional sheets are planned. The use of page protectors, index tabs and pockets built into the inside of the binder will also reduce its capacity due to the bulk of the pocket contents. Upon request we will provide you with a sample binder to fill with the number of sheets and inserts you anticipate using. Make sure the sheets turn easily. If they don't, you may want to consider a larger capacity. Please keep in mind the size of the cover and spine will increase with the ring size.

If you have a sample binder, measure the ring in the following manner. With the D-Rings, measure the inside of the straight part of the ring. With the round ring, measure the horizontal inside diameter of the ring. The D-Rings will be mounted on the back unless otherwise specified. Round rings will be mounted on the spine.

3. SELECT A MATERIAL OR VINYL COLOR: Options vary by style and are indicated on each page. See page 47 for vinyl color selections.

4. SEND CAMERA-READY ARTWORK: For original artwork or a special typestyle not shown, you must send camera-ready artwork. To be considered camera-ready, artwork must be clean, flat, color-separated and black and white. Reductions and enlargements can be made at no additional charge. Faxes and photocopies are not considered camera ready artwork. A design template is available for ease in preparing artwork for your binder and liner covers.

Rights to Promotion: We reserve the right to use any items which we produce in our advertising, displays, and sample requests, unless you specify otherwise, in writing, at the time you place your order.

5. RECEIVING FILES (preferred methods)

Adobe® Illustrator® - PC

- All fonts must be converted to outlines.
- If you are using an imported graphic in your Illustrator document be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high-quality or good vector art to receive the best quality printed product.
- Save the file as an Illustrator EPS or AI.

Adobe® Photoshop® - PC

- Files must be saved as a TIFF
- Submit black and white bitmap images at 600 dpi or higher and grayscale images at 600 dpi or higher for standard spot printing.
- For full-color printing or multi-color inks, CMYK images need to be submitted at 600 dpi or higher.

Full-Color Process Printing

- Every element of the file must be covered with process CMYK colors (no RGB, indexed color, etc.)
- If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

Submitting Your Files:

- We can also accept your files on a ZIP disk or CD. DO NOT send us the only copy of your file. The disk could possibly be lost or damaged going through the mail.
- Do not send artwork from word processors (Microsoft Word, WordPerfect). They are not high quality and will not produce.
- Do not email files larger than 2MB.
- Must include a 1" bleed with artwork

6. SELECT A TYPESTYLE: Indicate positioning and point size for typesetting. See typesyles on page 44 for more choices.

7. INCLUDE A DRAWING: Include a drawing to show the position of logo and type when sending orders to us. Imprint positions vary by binder style and options are indicated on each page. All imprinting must be at least 1/2" from the edges for stitched binders and 1/4" from edges and rivets for standard, heat-sealed binders.

8. SELECT A PRINTING/ PERSONALIZATION PROCESS:

- Embroidery
- Blind-debossing
- Silk-screening
- Foil-debossing
- Foil-stamping

See page 46 for decoration information.

ART CHARGES: If your layout requires special attention or your artwork is unsuitable for reproduction, we will make the necessary changes for a minimum charge of \$25.00 NET. You will be notified if the changes will exceed \$25.00 NET. A two-color logo requiring color separation will receive a minimum charge of \$15.00 NET. Electronic Art: Production time does not start until your file(s) have been approved.

CHANGES OR CANCELLATIONS: Changes to orders in progress may require additional charges and/or time with the service charge reflecting the amount of work already completed. Cancellations after an order is in progress will require payment for work completed.

PROOFS: Black-and-white proofs are available for \$16.00 (R) each. Printed press proofs are available upon request. Please call for a quote. Production begins after we receive signed proof authorization.

RUSH ORDERS: If production schedule allows, charges for rush orders are based on time constraints and complexity of the order. Please contact us for a quote.

DECORATING: All imprinting must be a minimum of 3/4" from outside edges for stitched products and 1/4" from outside edges and rivets for standard, heat sealed products.

FOIL-STAMPING: Foil-stamping uses a die, a metal cast of the artwork, and heat to adhere foil in a flat image onto the vinyl.

BLIND-DEBOSSING: A metal die is pressed into the surface of the material creating a debossed (depressed) image.

FOIL-DEBOSSING: Combines foil-stamping and blind-debossing. The foil is stamped onto the vinyl and a metal die is used to depress the imprint that is foil-color filled. Foil stamping/debossing price includes printing on the cover of the binder up to 20 square inches. A hot-stamped/debossed imprint on the front cover and the spine would require a second position foil stamp and a set-up charge.

DIE TYPES: Magnesium Dies: These single-level dies are used for foil stamping and debossing. All dies are recycled. Dies will not be returned unless requested during the time the order is placed.

***DIE CHARGES-FOIL:** Use the following guideline to determine your die cost. Dies are \$46.50 (V) minimum, up to 20 square inches and \$2.05 (V) for each additional square inch. Charges for dies vary according to the size of your design. Send actual sized artwork or a sample for an estimated die charge.

FOIL CHARGES: Standard foil colors are Black, Blue, Dark Blue, Red, Burgundy, Forest Green, Silver, Gold and Copper. Special foil colors are available. Please call for a quote. All foil imprints require the use of a die (see die types and die charges).

2-POSITION FOIL STAMP: Foil Stamping prices include printing on the cover of the binder up to 20 square inches. A hot-stamped imprint on the front cover and spine requires a 2nd position foil stamp and set-up charge.

ADDITIONAL DIE SETUP: If more than one die is used, an additional \$45.00 (R) set-up charge is required.

DECORATING GUIDE: Die costs are figured by the size of the die. The checklist below will step you through figuring out your die size. We used the example of foil in the samples below, but the same can apply to debossing.

- How many areas of foil? If there is 3 1/2" of space in between the areas of foil, then each foil area is a separate die charge and a 2nd die set-up charge will also apply.
- Measure the height and the width of the foil area.
- Multiply the height by the width to get your total area size. Example: 2" x 2" = 4 square inches.
- Figure the die size for each area. There are additional die set-up charges for orders with more than one die. The maximum recommended square inch stamping area is 20" for one position.

FOUR-COLOR PROCESS: The pricing for four-color process printing includes four process ink colors. If an overall background color is requested, an additional charge will apply due to the additional press run required. Call our Customer Service Team for more information on pricing. Please allow 15 working days.

SILK-SCREENING: The process of printing using a mesh screen that has your desired artwork burned into it. Printing is done by forcing the ink through the mesh screen. There is no set-up charge for silk-screening. Silk-screening prices include the printing on the cover, spine and back of the binder. If an imprint color match is vital to your project, we recommend the use of white vinyl.

STANDARD INK: All standard inks are gloss (coated) inks. Standard ink colors are Black, Brown, Burgundy, Green, Grey, Process Blue, Reflex Blue, Red, Teal, White, Silver and Gold. Inks are not completely opaque. Avoid light-colored inks on dark vinyl due to the ink discoloring.

SPECIAL INK: Special ink colors are available for an additional charge of \$55.15 (R) per item, per color selected from the Pantone® Color Formula Guide.

REGISTRATION: Registration is when two ink and/or foil colors touch or when there is no tolerance for movement. Hot-stamping/debossing in more than one color in close registration is not available. Please call for a quote if artwork requires two ink colors in registration.

BLEEDS: A bleed is a printed image that extends off the edge of the vinyl. There will be an additional charge if artwork does not bleed a full 1" beyond the product size.

SCREENS: A screen or halftone is a dot pattern of a solid ink color that makes that color look lighter. For example, when red is screened it looks pink. Graduated screens are areas of color that gradually change their density from light to dark. Standard screen percentage is 50% to 75%. The number of lines per inch in a halftone image is called a line screen. Screen printing requires 65-85 line screens.

All foil colors shown below are metallic unless noted. Gold and silver are available in a Satin (matte) and Metallic (shiny) finish. We recommend using a metallic foil on French Calf and Suedene vinyl. The Satin foil is recommended on premium vinyl and stitched products. If the finish is not indicated on your order, we will use our best judgment to select the proper finish for attractive presentation products.
