If Made in the USA is important to you, take a look at the Channellock tools. Products with the all blue handles are made in the USA and have a lifetime warranty. Most known for their Tongue & Groove Pliers, Channellock has been providing high quality tools to tradesmen and do it yourselfers for more than 125 years. These products are great for any manufacturing, automotive or other trade industry. Along with the tongue & groove pliers there are a variety of specialty pliers, screwdrivers and other tools we offer in our product line. By giving a Channellock in your next promotion you can be sure you're giving a quality item that will be used over and over again.

HOW TO SELL CHANNELLOCK TOOLS:

Channellocks are a great fit for any manufacturing, plumbing or automotive customer.

Channellock tongue & groove pliers would make an excellent employee gift for a plumbing company and being made in the USA is an added bonus for any union companies.

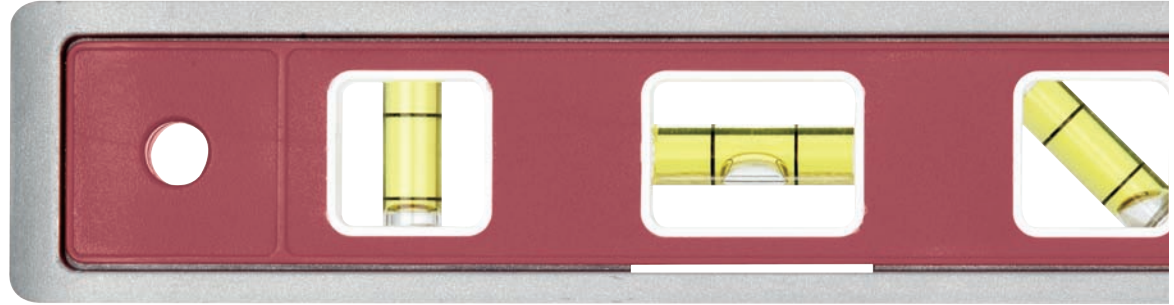

If you have any automotive customers, offer them a Channellock air brake tool that they will be excited to add to their tool box!

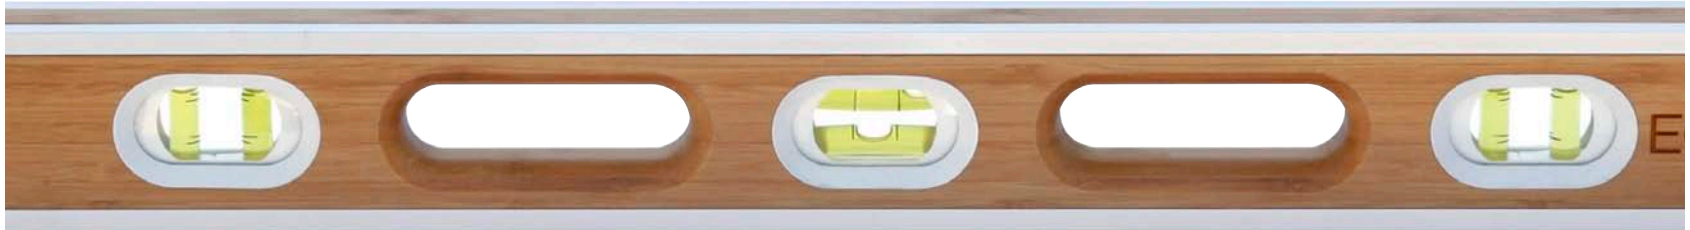

JOHNSON

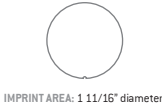

Founded in 1947, Johnson is a leading manufacturer of professional quality levels and measuring tools, designed to help customers get their work done more quickly and accurately. Johnson products are great for the job site worker or the everyday handyman. As a supplier of USA made products Johnson produces most of their levels in their Mequon, WI facility. The tape measures offer a great imprint area and are decorated with an eye-catching full color decal. The tape measures offer a great imprint area and are decorated with an eye-catching full color decal.

24" BAMBOO ECO TECH LEVELS - ITEM #10072

This Grainger EcoTech® bamboo level is comparable to the Johnson Level 1600-2400 EcoTech® bamboo level. In 2011, Johnson Level was the first to introduce bamboo spirit levels to the world. Not only is bamboo eco-friendly, these levels are very "job site tough". All are made in our dedicated wood level manufacturing facility in the North woods of Wisconsin, U.S.A. EcoTech® Bamboo Spirit Level Features: •Strong, durable, tough laminated bamboo frame •Abrasive resistant easy clean bamboo frame •Flush mounted protective metal bindings MFG# 1600-2400 About Bamboo: Bamboo is the fastest growing plant on earth, with a tensile strength comparable to steel. Despite being categorized as a wood levels, bamboo is actually a grass, not a wood, and it grows in specific climates all over the world. Made into carpenter, mason and bricklayer levels, it is strong, durable, tough and sustainable. For these reasons, bamboo is rapidly becoming one of the most popular types of residential and commercial raw materials in use today.

BIKE LIT - ITEM #10001

Cyclists who ride at night/early morning know how important it is to see and be seen by their fellow commuters. That's why we designed our BikeLit to not only light your way, but also immediately signal your bike's front/rear orientation to oncoming traffic. Like the universally recognized headlights and taillights of a car, the BikeLit comes in two colors: white attaches to the front brake cables, (illuminating the path ahead and letting people know you're coming their way), and red locks under the back of the seat (clearly marking the rear of your bike). FLASHLIGHT MINI - ITEM #10004

The Nite Ize Flashlight Mini is the perfect take-along for any nighttime event. Made with soft-touch plastic, sized to fit easily in back pockets, backpacks, and purses, it weighs only 55 grams, and is easy and comfortable for even the littlest hands to grasp. With a simple push of a button, its long-life [100,000 hour] LED bulb lights up, and an ordinary game of catch becomes extraordinary fun in the dark. Buy them all and get more than one going at a time for brilliant group recreation; they make excellent party favors, too. MFG# FFM-08

MOONLIT - ITEM #10006

The Nite Ize MoonLit can be used and reused in countless configurations—it's an easy, handy way to shine ambient light from almost any angle. We've connected our famous SpotLit to a bendable, durable 18" Gear Tie, using a slimline stainless steel crimp connection. The long-lasting LED bulb has two functions—steady glow and continuous flash—and emits light bright enough for reading fine print. Wind the MoonLit around tree limbs, tent poles, bed posts, or make a loop at one end and hang it from a hook for steady ambient overhead light. Set in flash mode and wrapped around bicycle handlebars, backpack straps, or even your arm, the MoonLit keeps you safely visible in the dark. Water-resistant, long-life, replaceable battery included. GETLIT - S-BINER - STAINLESS - ITEM #10002

The Nite Ize S-Biner GetLit is two handy devices in one. Its bottle-opener top features a high quality stainless steel carabiner clip with a secure gate closure, so you can easily attach it to a backpack strap, key ring, cooler/tackle box/ski bag handle, zipper pull, belt loop—anything with a loop or D-ring. Simple to unhook and reattach, it's the perfect go-anywhere bottle opener, and with its built-in LED, it's a perfect anytime area light too. One quick press of the thumb activates bright, glowing light (press twice for flash mode), enabling you to see which beverage you're opening and otherwise find your way around when it's dark outside. SLAPLIT - ITEM #10007

Remember slap bracelets, from when you were a kid? The Nite Ize SlapLit features that same "slap it to snap it" technology with an added dimension of LED illuminating functionality. Made of durable nylon patterned with a reflective spider web design, the SlapLit is powered by a bright, easy-to-activate LED that lights up the entire wrap. Turn it on, slap it on your wrist, upper arm, or ankle (or any tubular-shaped object, for that matter), and you've got instant nighttime visibility. Lightweight and durable, the SlapLit is perfect for after-dark lawn games; running, walking, or cycling at night; and outdoor evening concerts and events. Use and reuse countless times—the SlapLit can be straightened with a simple twist of the thumb and stored flat, or hung in its straightened form and used as an LED marker beacon. MFG# SLP-03-51

- **MATRIX** of Stock Imprint colors

PERSONALIZATION:

Laser Engraving: \$62.50 (g) setup charge plus running charge of \$2.50 (g) per piece. Specific layout in excel required, available upon request.

REORDERS:

Repeat order only applies to exact artwork on exact item. Specify the previous PO. Artwork stays on file for 2 years. Below setups plus running charges (if applicable).

- PAD PRINT SETUP: \$25.00 (g)
- LASER SETUP: \$30.00 (g)
- FULL COLOR DECAL: \$25.00 (g)

ART WORK REQUIREMENTS:

The following is provided to assist you in submitting art that will ensure satisfaction and timely completion of your order. Please be as specific as possible with the layout of the artwork. This will allow us to efficiently process your order. If exact size is NOT stated, art will be sized to fit item.

- Acceptable file types:
- Adobe Illustrator vector format (.ai, .eps, or .pdf) is preferred. Please remember to convert all text to outlines. For any photo-real imagery, please submit .psd, .tif or .jpg files. The original file must be at least 300 dpi resolution or higher at actual size.

UNSUPPORTED FILE TYPES:

QuarkXpress, PageMaker, Freehand, Word, Excel, PowerPoint. Any unsupported file types will result in additional charges for redrawing artwork.

LOGO PLACEMENT & SIZING:

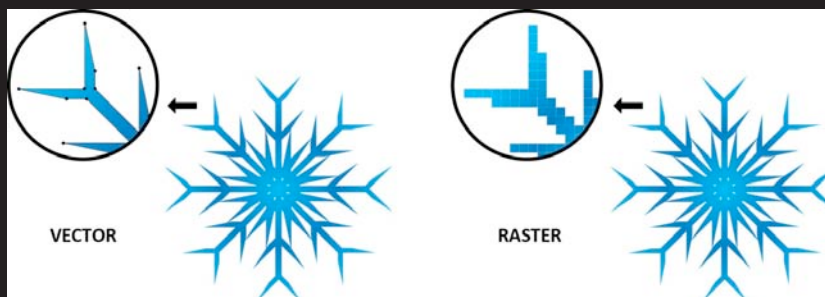

Appropriately determined by BrandBox unless specified by your purchase order.

ADDITIONAL LOGO INFORMATION:

Please also provide any additional information specific to your logo, regarding Pantone (PMS) colors, thread colors, or brand guidelines.

VECTOR VS. RASTER ARTWORK:

Vector artwork is created by a series of points and paths. It can be scaled, edited and resized without compromising the quality. Raster artwork is created by a fixed number of pixels. It cannot be scaled up once saved. Example:

HI-RES VS. LOW-RES ARTWORK: High resolution artwork is needed for clear reproduction of your logo. This means that your artwork must be at least 300 dpi at the size it is to be printed. Low resolution files will reproduce poorly, and have a blurry, pixellated look. Example:

Image at **72 dpi**

Image at **300 dpi**

ELECTRONIC PROOF:

An Electronic proof is automatically sent for your approval. Approval is required before production begins.

PRODUCTION PROOFS:

Are available on request.

- Standard setups/ running charges apply.
- Product proof will add 4-6 working days to production time. Product proofs are not available on rush orders.
- All proofs MUST be approved in writing.

SPECULATIVE SAMPLES:

Samples can be produced in 4-6 working days for Standard setup/running charges and freight. Limit one spec sample per order.

ORDER PRODUCTION TIME:

10 working days from receipt of order and art.

RUSH SERVICE:

Is subject to stock availability

- Orders and artwork must be received before 12noon EST. Indication of rush service request must be clearly stated on Purchase order.
