Converting artwork from 72 dpi to 300 dpi will not yield good results & in most cases not useable. For Larger files use our drop box:

GARMENT GUIDELINES & APPAREL SUGGESTIONS

- We only print on 100 % Cotton Garments of any color. Lighter colors normally print better
- White garments can be made of blends, or 100% Polyester.
- No garment can be treated with a stain resistant / waterproofing chemical.
- Avoid products with more than a 1 X 1 rib fabric as fabric weave will affect print detail.
- DTG Printing uses water base inks, and doesn't produce the brightest, most vivid color.

Dye lots may affect print quality in an order.

Fleece must be 90% cotton , we recommend Hanes Print Pro Fleece.

Throughout our extensive research and testing of many brands and styles, the apparel we recommend to obtain optimal results are listed below.
