HOW IT WORKS

PEEL

ETCH

NEVER LOSE YOUR DRINK

Each Etch-it cup is an artist's canvas. Simply use your fingernail to etch your design, and never lose your cup again! You can identify your cup with your name, phone number, or unique message. The "magic" material etches easily with a fingernail, yet will not smear or stain even when wet. The process is instant, fun, and pen-less...and every cup becomes an individual masterpiece.

Advertisers will love the attention the cups get with their brand image in full view. On top of that there will be fewer cups used, fewer cups abandoned, and fewer cups to clean up. Put your name in the hands of your target audience and watch their creativity come out front and center!
