"I, personally, have been using the Neckeze collar for the last 3-4 years when traveling by air or car. It provides excellent support for the head and neck when traveling long distances where you have a tendency to fall asleep- No more pain in the neck or down the arms when you wake up. I recommend Neckeze to all my patients when they travel long distances."

"My four year old daughter used to struggle to sleep peacefully in her car seat. Now that she wears the Neckeze, her head no longer flops around when she naps. The Neckeze is a life saver on short or long car trips!"

"So for those who are wondering about trying Neckeze, I say GO FOR IT!The patterns and colors make it fun for the kids wear, and as a parent I like the comfort it provides for my children. I also have to ask myself if we were unfortunate enough to get in an accident, would it maybe provide some extra safety for my child's neck from whiplash. Why wouldn't you want to have your child sleep more comfortably on those long rides, and possibly ride a little more safely? "

"I was always concerned about sleeping on airplanes - wanting to doze off, but afraid of waking up with neck pain. The neckeze collar really helps to catch a few extra zzz's while traveling - and I don't feel self-conscious because I know my mouth won't be hanging open. And I especially like the colors Neckeze offers so I can match my clothes."
